Research Profile

My research develops a theory of ecological inference for complex systems. I investigate how ecological representations capture, distort, and constrain our understanding of biodiversity. By combining ecological theory, network science, machine learning, and complexity science, I study how interactions emerge across scales, the propagation of uncertainty through ecological analyses, and what can ultimately be inferred and predicted about ecological systems from incomplete observations. My work aims to transform ecological networks from descriptive summaries into rigorous, predictive tools for biodiversity science and decision-making.

Professional Experience

Postdoctoral Researcher — *Sheffield, UK*

University of Sheffield — *2024 - Present*

Education

Doctor of Philosophy in Biological Sciences — *Montréal, Canada*

Université de Montréal — *2020-24*

Master of Science in Ecology and Biodiversity — *Stockholm, Sweden*

Stockholms Universitet — *2018-20*

Bachelor of Science (Honours) in Plant Sciences — *Pretoria, South Africa*

University of Pretoria — *2017*

Bachelor of Science in Ecology — *Pretoria, South Africa*

University of Pretoria — *2014-16*

Funding and Awards

Robert May Prize

Awarded by: British Ecological Society *2022*

Qualified for the UP Postgraduate Masters Research Bursary

Awarded by: University of Pretoria *2018*

Awarded the 3rd year Undergraduate Mentorship Bursary

Awarded by: University of Pretoria *2016*

Research Outputs

Publications

* Indicates co-lead author

Collaborative Projects

Black Holes and Revelations: Identifying Priority Sampling Locations for Local Food Webs in Canada

PIs: F. Banville, M. Catchen, G. Dansereau, and **T. Strydom** *2022*

Merging Statistical Theory and Analyses at the Interface of Microbial and 'Macrobial' Ecology

PIs: M. Liebold, P. Peres-Neto, and E. Thebault *2022*

Canadian metaweb construction working group

PIs: T. Poisot and L.J. Pollock *2021*

Network prediction synthesis working group

PIs: T. Poisot and L.J. Pollock *2020*

Plant Functional Trait Course 5 in Peru

PIs: V. Vandvik and B.J. Enquist *2020*

Presentations

Workshops and Organised Sessions

Space Oddity: Thinking About Ecological Networks Across Space — *ESA/CSEE Meeting*
Francis Banville, Gabriel Dansereau, **Tanya Strydom** — *Aug., 2022*

Designing a collective prototype of future tropical and subtropical science — *ATBC Annual Meeting*
Gracielle Higino, Mickey Boakye, Norma Forero, **Tanya Strydom** — *Jul., 2021*

Invited talks and seminars

The Risks and Rewards of Large Language Models in (Open) Scientific Research — *SORTEE*
Tanya Strydom — *Oct., 2025*

What's [complexity] got to do with it? — *NetSci 2023*
Tanya Strydom — *Jul., 2023*

Making something out of nothing at all: Transfer learning for network prediction — *ML4MS mini-conference*
Tanya Strydom — *Apr., 2022*

Taking FAIR and open science to the field: The evolution of the PFTC field course — *Living Norway Colloquium*
Tanya Strydom alongside Aud H. Halbritter, 109 PFTC Participants — *Oct., 2020*

Talks

It's okay to be different: Understanding how and why network construction matters — *4th CPEG Symposium*
Tanya Strydom — *July, 2025*

Exploring the complexity of ecological networks using SVD entropy — *11th Annual QCBS Symposium*
Tanya Strydom, Giulio V. Dalla Riva and Timothée Poisot — *Dec., 2020*

Short Presentations and Posters

The Nuances of Food Webs: An Overview of Definitions, Scales, and Mechanisms — *BES Annual Meeting*
Tanya Strydom, Jennifer Dunne, Timothée Poisot and Andrew P. Beckerman — *Dec., 2024*

Food web reconstruction using transfer learning — *12th Annual QCBS Symposium*
Tanya Strydom, Salomé Bouskila and Timothée Poisot — *Dec., 2021*

Reconstructing food webs using transfer learning — *CSEE-SCEE Annual Meeting*
Tanya Strydom, Salomé Bouskila and Timothée Poisot — *Aug., 2021*

Teaching

Invited Lectures

Species Interaction Networks: A Macro-level Overview — *Univerity of South Florida*
Community Ecology — *2025 - Present*

Science Communication & Outreach

Scientific outreach

Cartoonist
Fortnightly cartoonist for Ecology for the Masses blog — *2020 - 2022*

Skype a Scientist
Q&A sessions with school groups — *2024 - Present*
